DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas Goldhush (Reg. 33,125) on 01/18/07.

The application has been amended as follows:

In line 1 of claim 9 after "detection program" insert -- stored on a computer readable medium --

In line 1 of claim 16 after "detection program" insert -- stored on a computer readable medium --

Allowable Subject Matter

2. Claims 1 – 16 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The art of record does not teach nor does it suggest the specific features called for in the claims, in particular the concept of combining movement information and distance information for target selection. There are many teachings, for example Knoepfel (7,046,822) where stereo imaging is used to obtain distance information,

which is subsequently to clump objects together for tracking. But none of the prior art uses the movement information before the tracking stage, whereas the current application uses the information for target selection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
5. US Pat. 5,835,880 – Early teaching of using stereo imaging distance information for tracking in vehicles.
6. US Pat. 6,674,877 – Teaches tracking people using distance information from stereo imaging.
7. US Pat. 7,003,136 – Is another teaching of tracking objects in three dimensions.
